

INDIA.RUNS

Build what next India runs on

Track 3

Everyday AI Innovation Challenge

Redrob Context & Ideathon Scope

Redrob AI is building an AI-native ecosystem spanning hiring, productivity, communication, discovery, workflows, recommendations, automation, and intelligent user experiences.

Participants are encouraged to think beyond standalone applications and explore how their ideas can:

Extend existing
Redrob capabilities

Improve
experiences for
Redrob users

Introduce
new AI-native
workflows

Strengthen ecosystem
engagement and
network effects

Important

Participants are not expected to build a completely new platform from scratch.

Strong submissions will demonstrate:

How the idea leverages existing Redrob capabilities

What new capability, workflow, or value layer is introduced

How the idea strengthens the overall Redrob ecosystem

Why Redrob is uniquely positioned to enable this experience

INDIA.RUNS

Build what next India runs on

Track 03

Everyday AI Innovation Challenge

Project Name: SeaSenseAI

Problem Statement: An AI-powered Fisheries Intelligence Platform integrated with Redrob to improve fishermen's safety, income, and decision-making.

Team Members: Priyanga Selvaradjou

Problem Statement

- **Key Challenges:**

Fishermen often make critical decisions without real-time information, resulting in:

- 🌩️ Unpredictable weather and sea safety risks
- 💰 Uncertain fish market prices
- 📄 High fuel costs due to inefficient fishing routes
- 📱 No real-time information for safe and profitable fishing.

- **Target Users:**

- ❖ Small-scale fishermen
- ❖ Fisheries & coastal communities

- **Why It Matters:**

- ❖ 🌀 Enhances safety at sea with AI-powered alerts.
- ❖ 💰 Improves income through smarter fishing decisions.

Our Solution: SeaSenseAI

- The solution:
 - ❖ SeaSenseAI – An AI-powered feature within Redrob
 - ❖ Provides weather alerts, fish price prediction, and smart fishing recommendations.
- Key Benefits:
 - ❖ Improves safety with real-time sea alerts.
 - ❖ Increases income through AI-powered price prediction and smart fishing guidance.
- Redrob Integration:
 - ❖ Integrates as a new AI-powered module within the Redrob ecosystem.
 - ❖ Leverages Redrob's AI, notifications, and cloud platform.
 - ❖ Expands Redrob's impact into India's fishing ecosystem.

"SeaSenseAI extends the Redrob AI ecosystem into the fisheries sector, empowering fishermen with safer journeys, smarter decisions, and better livelihoods."

Target Users & Their Needs

- **Target Users:**
 - ❖ Small-scale fishermen
 - ❖ Coastal communities
- **Key Challenges:**
 - ❖ Safety risks
 - ❖ Income uncertainty
 - ❖ Limited access to real-time information
- **How SeaSenseAI Helps:**
 - ❖ Stay Safe
 - ❖ Earn More
 - ❖ Fish Smarter

User Journey & Experience

- **User Journey:**
 - ❖ Open SeaSenseAI in Redrob
 - ❖ Check AI weather & sea alerts
 - ❖ View fishing zone and price prediction
 - ❖ Fish safely and sell at the best price
- **User Experience:**
 - ❖ A simple, mobile-friendly dashboard with AI insights, alerts, and voice support in local languages.
- **Why It's Easy to Use:**
 - ❖ Easy icons, one-tap navigation, voice guidance, and personalized AI recommendations.

- **User Journey / Storyboard**

AI-Powered Experience

- **AI Capabilities:**

- ❖  Predicts weather & sea risks
- ❖  Forecasts fish market prices
- ❖  Recommends the best fishing zones

- **AI-Powered Features:**

- ❖ Automated safety alerts
- ❖ Personalized fishing recommendations
- ❖ Real-time market insights

- **Business Impact:**

- ❖ Helps fishermen make safer decisions
- ❖ Increases income with accurate predictions
- ❖ Saves time and fuel through smart recommendations

"Powered by Redrob AI, SeaSenseAI transforms weather, market, and location data into actionable insights that help fishermen make safer, smarter, and more profitable decisions."

Accessibility & Inclusion

- **Inclusive Features:**

- ❖ 🌐 Supports multiple local languages
- ❖ 🗣️ Voice assistance for non-readers
- ❖ 🧑🏭 Designed for both experienced and new fishermen

- **Accessible Experience:**

- ❖ 📱 Simple, easy-to-use interface
- ❖ 🔔 Clear AI alerts and notifications
- ❖ 📶 Works efficiently even with low internet connectivity

"SeaSenseAI ensures that every fisherman—regardless of language, literacy, or experience—can benefit from AI."

Impact & Real-World Benefits

- **Positive Impact:**

- ❖  Safer fishing trips
- ❖  Higher income for fishermen
- ❖  More sustainable fishing practices

- **Benefits for Users:**

- ❖ Real-time AI insights
- ❖ Better decisions with less risk
- ❖ Saves time, fuel, and money

- **Benefits to the Redrob Ecosystem:**

- ❖ Extends the Redrob AI ecosystem into the fisheries sector
- ❖ Creates positive social impact for coastal communities
- ❖ Demonstrates AI solving real-world challenges

"SeaSenseAI creates safer livelihoods, smarter decisions, and lasting impact—powered by the Redrob AI ecosystem."

Future Potential

- **Future Enhancements:**

- ❖ 🤖 More accurate AI predictions using historical data
- ❖ 🌐 Expand to fishing communities across India
- ❖ 🛰️ Integrate with satellite and government data for better insights

- **Future Opportunities:**

- ❖ 🛒 Direct marketplace connecting fishermen with buyers
- ❖ 🐟 AI-powered fish catch prediction & quality assessment
- ❖ 📊 Digital catch records and analytics for fishermen

“SeaSenseAI has the potential to become India's trusted AI platform for the entire fisheries ecosystem—from trip planning and safety to market access and sustainable fishing.”

Appendix 1 – SeaSenseAI Wireframe

Appendix 2 – User Flow

Appendix 3 – Competitive Analysis

Feature	Existing apps	SeaSenseAI
 Weather alerts		
 Fish price prediction		
 AI fishing zone		
 Local language voice	 Limited	
 Redrob AI integration		

Appendix 4 – Architecture Diagram

Appendix 5 – Future Roadmap

From safety essentials to a connected fishing ecosystem

Phase 1

Weather alerts

Price prediction

AI fishing zones

Phase 2

Buyer marketplace

Voice assistant

Catch analytics

Phase 3

Government integration

Insurance support

Sustainability insights
